Date of birth: 07/11/2004 | **Nationality:** French | **Address:** France (Home)

EDUCATION AND TRAINING

01/09/2025 – CURRENT Rennes, France

MASTER'S DEGREE IN APPLIED MATHEMATICS AND STATISTICS (MAS) - DATA SCIENCE FOR PUBLIC DECISION MAKING ENSAI & University of Rennes

Master's programme in applied mathematics and statistics, with a specialisation in data analysis for public decision-making. Training in statistical modelling, econometrics, machine learning and data science, with applications to public policy evaluation. Strong practical experience in R, Python, SQL and statistical data analysis.

02/09/2024 – CURRENT Rennes, France

"MAGISTÈRE" IN STATISTICS AND ECONOMIC MODELLING University of Rennes

Selective dual-degree programme combining advanced training in statistics, econometrics and data science, with a focus on statistical modelling, machine learning, advanced statistical methods and databases.

01/09/2022 – 31/08/2025 Rennes, France

BACHELOR'S DEGREE IN MATHEMATICS AND COMPUTER SCIENCE FOR SOCIAL SCIENCES (MIASHS) University of Rennes

Interdisciplinary training in mathematics, statistics, data analysis and computer science, with a focus on statistical modelling, econometrics and data science. Developed practical skills in R, Python and SQL through applied quantitative projects.

WORK EXPERIENCE

RESEARCH INTERN – LIRIS, UNIVERSITY OF RENNES 2 – 27/04/2026 – 09/07/2026 – RENNES, FRANCE

Contributed to the QPQR ("Who Leaves, Who Stays?") research project investigating the residential trajectories and family mobility of young adults. Cleaned and structured a large-scale survey dataset, developed indicators, conducted statistical analyses, and built econometric models to identify the determinants of residential distance between parents and their adult children.

DATA ANALYST INTERN – DIRO (FRENCH MINISTRY OF TRANSPORT) – 12/05/2025 – 25/07/2025 – RENNES, FRANCE

Analysed and processed large-scale road traffic datasets using R, including speed, travel time and congestion data. Developed traffic indicators, interactive dashboards and automated statistical reporting to support traffic monitoring, mobility planning and infrastructure management. Contributed to analytical reviews and explored mobility patterns and usage trends, while improving data processing, visualisation and reproducibility workflows.

SKILLS

microeconomics | macroeconomics

Programming & Tools

Python : Seaborn, Matplotlib, Numpy, BeautifulSoup, Pandas | R/Shiny | SQL | PowerBI | SAS language |
Microsoft Excel | Julia

Data Analysis and Modelling

Classification, Regression, Clustering, Decision trees, K-Means Clustering | Descriptive Statistics | Missing value imputation | deliver visual presentation of data

● **LANGUAGE SKILLS**

Other language(s): **CHINESE**

	UNDERSTANDING		SPEAKING		WRITING
